

ELBA a 6 ZAMPE

CIN  feeling

La VERA vacanza con il tuo cane!

OGGETTO: "ELBA 6 LEGS®" Active Weeks SPECIAL for dogs owners

Elba Excursions ASD, Active Club multisport CONI/OPES affiliate has been involved in sports, social promotion activities and sports tourism since 1998.

Since 2017, our dog activity has begun in the local unit near Bologna, with the brand "CINOFEEELING.IT". Thanks to our Staff, trained with the best Technical Courses and above all a lot of experience, we provide specific services, educational stays and special holidays with your dog at 360°.

The location for our "ELBA A 6 ZAMPE®" is ideal for always being safe. The area includes our bases FABRICIA and GROTTA are completely DOG FRIENDLY accommodation facilities, close to each other only 800m by sea and 10' by car. The bay, which is entirely shallow, allows us to have no maritime traffic around and a lot of operational tranquility for surface and coastal activities with animals and more.

The vehicles used at sea are equipped with a First Aid Kit, oxygen cylinder and administration kit.

A defibrillator is operational at the headquarters and there is a "Lifeguard Assistance" service.

Participants will always be followed by skilled Instructors and Guides.

The week/period will take place with 2 integrated programmes, "CINOFEEELING" for the part dedicated to our 4-legged friends, and "BLUE" (optional, to be indicated when booking) for people, also with excursions and activities in confined waters (swimming pool), sea and boat. Finally, leisure activities can be added.

The first day will be dedicated to learning about logistics, the accommodation facility, the rules and how to move within it. you will get to know animals and people in order to integrate immediately.

At the end of the week/period, small checks will be carried out on the animals, and then a Certificate of Participation will be delivered, also useful as a facilitated and DISCOUNTED entry to the additional Camps in which they can participate later.

Minimum number of participants 6, maximum 12
